Speeding Concerns: Speeding is a frequent concern in our villages. While speed enforcement can hold speeding motorists accountable, research indicates it is not the most effective deterrent. Instead, road layouts and other measures prove more successful. Nevertheless, our neighbourhood team has acquired speed guns and has been actively monitoring and catching speeding drivers. We will focus our speed enforcement efforts on areas identified by the community as problematic. If speeding is a concern to you, please look to become involved in the community speed watch programme (link at the end of the newsletter).

Parking Concerns: Parking is a common issue across all our areas, often leading to neighbourhood disputes and community tension. We provide advice on an individual basis and, in some cases, work with schools to send polite notices to parents where parking is an issue during drop-off and pick-up times. We also patrol during these times, leaving notices and issuing tickets where applicable. Consideration notices stating that Thames Valley Police (TVP) are aware and monitoring have been issued in peak areas to act as a deterrent in the absence of road markings.
