WHAT TO WEAR

Spray paint does not come out of clothing - make sure you wear scruffy clothes and footwear that you do not mind getting damaged.

Make sure you dress appropriately for the weather if it's cold and raining. e.g hats, gloves, coats

Air filtration masks must be worn at all times when spraying or on site. These will be provided by staff.

DESIGN IDEAS

LINKING TO THE COMMUNITY

The town is the birthplace of the Paralympic Games. During the 1948 Olympics in London, German-British neurologist Sir Ludwig Guttman, set up a small sporting event for World War II veterans known as the World Wheelchair and Amputee Games (WWAG) at Stoke Mandeville Hospital Rehabilitation Facility in Aylesbury.

The ring-necked parakeet is a unique bird in Buckinghamshire because it is the only naturalized parrot in the area. It is bright green and is likely to have succeeded due to warmer winters.

David Bowie played an experimental gig at the Friars club in Aylesbury in September 1971 to see if he could cut it playing live.

Aylesbury is a multicultural community
